Abstract

This document is a template.

Keywords: Keyword 1, Keyword 2, Keyword 3

Mostly Interactions are (probably) Wrong

This is my first paragraph. Any section headings in the introduction should be in levels 2–5.

Introduction

Liddell and Kruschke (2018) and Wagenmakers et al. (2012) provide a very clear introduction about the problem of testing interactions with the wrong model.

Method

Results

The Figure 1 summarise the results of the paper.

Discussion

Limitations and Future Directions

Conclusion
